Year Ending December 31, 1985

To the Board of Selectmen
Town of Hampstead, New Hampshire

I have examined the financial statements of the Town of Hampstead, New Hampshire for the year ended December 31, 1985, and have issued my report thereon dated January 28, 1986. As part of my examination, I made a study and evaluation of the Town's system of internal accounting control to the extent I considered necessary to evaluate the system as required by generally accepted auditing standards. The purpose of my study and evaluation was to determine the nature, timing, and extent of the auditing procedures necessary to express an opinion on the system of internal accounting control taken as a whole.

The selectmen of the Town of Hampstead are responsible for establishing and maintaining a system of internal accounting control. In fulfilling this responsibility, estimates and judgments by the selectmen are required to assess the expected benefits and related costs of control procedures. The objectives of such a system are to provide the selectmen with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles.

Because of inherent limitations in any system of internal accounting control, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

My study and evaluation made for the limited purpose described in the first paragraph would not necessarily disclose all material weaknesses in the system. Accordingly, I do not express an opinion on the system of internal accounting control of the Town of Hampstead, New Hampshire taken as a whole. However, my study and evaluation disclosed no condition that I believed to be a material weakness; however, I wish to submit suggestions and recommendations regarding other weaknesses that have come to my attention as follows:

Library Fund

The accounting system for the library fund does not include a cash receipts journal sufficient to record all cash receipts in double entry form. It is highly recommendable that such be initiated and maintained in such fashion as to record date, amount, payer, and classification of revenue type. It is further recommended that donees of noncash property be recorded by donee, date of gift, description of property and fair market value of date of gift. The proper maintenance of such an accounting system would improve accounting and administrative controls over library revenues and the safeguarding of properties and cash received.

Library support documents, such as invoices, are not consistently and properly noted for the check number, date, and amount of payment; nor for class of distribution to accounts. The inconsistencies, although not material to the financial statements taken as a whole, do indicate weakness in accounting and administrative control. These inconsistencies may well be due to the lack of written administrative procedures, coupled with the library's reliance on volunteer workers who may not be familiar with those procedures. We recommend that such written procedures be documented and made available to all appropriate workers.

Bid Procedures

Administrative procedures dated March 18, 1980, and posted in the Town office requiring competitive bids on purchases exceeding $1,000, have not been consistently adhered to. Through inquiry and observation it came to our attention that the procedure is frequently either disregarded or overlooked. It is our recommendation that either the $1,000 limit be complied with routinely, or that the limit be raised.

The foregoing conditions were considered in determining the nature, timing and extent of audit tests to be applied in my examination of the financial statements, and this report of such conditions does not modify my report dated January 28, 1986 on such financial statements.

Building Inspector's Report — 1986

It is a pleasure to submit the annual report of the code enforcement/building inspector.

During 1986, 326 building permits were issued, totalling a dollar value of $18,145,045. These included 135 new homes, 5 mobile homes, 2 duplexes and 5 commercial buildings.

New policies adopted by the Board of Selectmen included the necessity of bringing about a certification of foundation positioning. This was initiated because of problems coming to light due to homes being placed inaccurately on lots of land and making financing difficult. This new policy, during a short length of time, saved numerous problems.

Regulations adopted in the past and still in force are requirements for oil burner and wood stove permits. These regulations have one goal in mind-that being the safety of the public.

Also adopted by the selectmen was the requirement for businesses to register with the Town Office. This will make the duties of the fire and police departments considerably easier. The locating of unknown businesses has given an almost impossible task to the above mentioned departments and this will eliminate those problems.

Sincere thanks to Dawn M. Shaw, the secretary to the Code Enforcement Officer. I have assumed a position that would be much more difficult if not for her expertise.

Sincere thanks, also, to Paul Wentworth for his willingness to fill the vacancy brought about by the resignation of Ted Hall. Ted was an asset to this department and his departure for "greener pastures" was a surprise.

It is our ultimate goal to make the code enforcement and building inspection department second to none. We respectfully ask residents of the Town of Hampstead for their cooperation in attaining this goal. It is out intention, also, to enforce our zoning regulations regardless of political ramifications, for politics has no place, in our opinion, in such enforcement.

The cooperation and understanding of the public during my tenure as selectman have been appreciated and I can only humbly request such continued assistance as I assume the role to which I have been recently assigned.

Respectfully submitted,
Kenneth H. Clark
Building Inspector/Code Enforcement Officer
Health Officer/Asessor

Selectmen's Report

It is an honor to submit to you, the residents of the Town of Hampstead, the annual report of the Board of Selectmen.

We welcome with open arms our new residents who have joined us during 1986. We respectfully request that these new residents become involved in community affairs. We urge you to attend town and school district meetings and contribute to your financial well-being-YOU WILL BE REMINDED AT TAX TIME WHAT YOU SPEND IN MARCH.

The Board of Selectmen, in conjunction with the Planning Board, recommend passage of zoning changes included in Warrant Articles 3 through 11 inclusive. To prevent possible future litigation it is vital we address our present zoning Article X. The proposed changes included in the warrant articles would allow fair and equitable housing for low and medium income families. Failure of this article could put the town in a precarious position in regard to recent court decisions.

We urge residents to study the proposed zoning changes pertaining to Recreational Zone B. If ever this board urged the residents to study and determine the implications of an affirmative vote on the proposed changes, we urge it now. It is the opinion of this office that the passage of Articles 12 through 17 cannot fail but to cause a serious degradation of the water quality of our lakes. These lakes are one of our most important natural resources and to seriously undermine the present regulations covering this zone would be a mistake of major proportions. We seriously feel that an affirmative vote on these changes would only serve a minority, not the majority of the town.

We can look, with pride, at our newly renovated police station. The former fire station has, under the able supervision of Chief Letoile, been converted to a public building that is an asset to the historic district and is attractive and functional.

We can look at pride that the municipal portion of the tax burden during 1986 has dropped from $3.01 in 1985 to $2.61 per thousand dollars of assessments. It is our desire that such a trend continue in 1987, but that decision is in the hands of you, the voters.

Sincere thanks is extended to my fellow board members for a relationship that during my tenure as selectman, could leave little to be desired. It has been an enjoyable period in my life and I extend my gratitude to the residents of the town for giving the honor to me. I hope during the past seven years I have contributed to the community's well-being.

We can look with pride at the lack of animosity and constant bickering between the departments of the Town of Hampstead, which seems to be the rule instead of the exception in our neighboring communities.

Appreciation is extended to Administrative Assistant, Priscilla Lindquist, for making a difficult position more tenable. Priscilla's knowledge of local, state, and federal regulations would make her replacement difficult. She is an asset for which we can humbly say ''thanks.''

Kenneth H. Clark, Chairman
Board of Selectmen

Planning Board Report — 1986

This year the Planning Board reviewed 39 proposals for development of land in Hampstead. Seventeen of these were for Subdivisions, fifteen were approved with a total of 54 house lots. One subdivision was for two commercial lots and this was also approved. A total of 14 Site Plans were submitted, two were denied and one was rejected without prejudice. The plans approved were for eleven new buildings and one was for an addition to an existing building. Eight plans for lot line adjustments were approved. All plats are recorded at the Registry of Deeds in Exeter, NH. Copies of plans are on file in the Town Clerks Office and the Planning Board Office. There were fifteen new roads constructed or they are under construction totaling 19,195 feet.

The Planning Board meets the first and third Monday of each month to conduct business. All meetings are open to the Public and begin at 7:30 PM. The Planning Board Office is open on Monday and Wednesday from 10:00 to noon for the public to review records and plans.

Chairman Dean C. Howard resigned this year. He had served on the Board for nearly twenty years having held all positions at one time including serving ex-officio as a Selectmen. Dean's knowledge, expertise, experience and good humor are missed.

SUBDIVISION

Karl & Natalie Benner, 314 East Rd., 2 lots, 1 buildable
Kitty Realty Trust, STONY RIDGE ROAD, 4 lots
Priscilla Lindquist, 76 Emerson Ave., 2 lots, 1 buildable
J. & J. Realty Trust, Lexington Dr., 3 lots
Jeremiah O'Leary, WELLINGTON DRIVE, 6 lots, 5 buildable
Bayberry Realty Trust, CROY PATH, BAYOOD DRIVE, 6 lots
Steve Wentworth, WENTWORTH LANE, PROCTOR DRIVE, 13 lots
Anthony Bonanno, FIELDSTONE DRIVE, 8 lots
Donald Field, 100 East Main St., 4 lots, 3 buildable
Richard Wade & Axel Anderson, Wash Pond Rd., 2 lots, DENIED
William Winmill, Hichory Rd., 50 ft. access parcel
KNL Realty Trust, extending Page Lane, DENIED
Eleanor Houston, North Salem Rd., 1 lot (conditional)

Pope Housing, Route 121, MC GREGOR DRIVE, 2 commercial lots
Donald & Virginia Duston, Timberlane Rd., CORLISS WAY, 5 lots
Peter Bonin, PEASLEE ROAD, 13 lots
Priscilla Lindquist, AGAWAM AVENUE, 5 lots, 4 buildable

SITE PLANS

Peter A. Lewis, Route 111, Building, retail sales & storage
Jamma Realty Trust, Route 111, commercial building
Knightbridge Development Corporation, Route 111, Village Square Condominiums, offices
Robin J. & Judith LeDuc, 139 East Main St., workshop
Consolidated Plastechs, Route 111, warehouse
Scott Construction, Route 111, condominium garage units
Berge Realty, Route 111, shopping center, DISAPPROVED
Cartwright Realty, Route 111, office building, DISAPPROVED
Dearborn Road Properties, East Main St., office building
Norman Bangs, East Main St., rejected without prejudice
Mike Tsapournis, Emerson Ave., change of use
Pope Housing, Route 121, office building
Lyn Kutzelman, East Rd., Atkinson Learning Center, school
Phillips Automotive, Route 121, addition to building

LOT LINE REVISION

Anthony Del Grosso, Gallant Drive
Charles & Laura Ashford, Geisser Lane
Charles M. Voorhees, East Road
Nancy Zwearcan, Emerson Avenue
Lewis Builders, Inc., Woodland Pond, lots #7 & #8
Raymond Duquette, Route 121-A
Lewis Builders, Inc., Woodland Pond, lots #44, #45, #46, #47
Lewis Builders, Inc., Woodland Pond, lots #26, #27, #28, #29, #30, #31, #32, #41

ROADS

Police Department Report — 1986

It is a pleasure to submit our annual report for the year 1986 and an honor to report that once again our town was selected as one of the safest towns in which to live. This we feel is a direct result of continued cooperation between officials, departments, residents and your Police Department.

During the past year we have been fortunate to complete our new station. An "Open House" was held during a snow storm, yet despite the hazardous road conditions a surprising number of residents attended. For those of you who missed it we would offer you the opportunity to visit us. We will be open on Tuesdays 9AM to 1PM and on Wednesdays from 9AM to 4PM during which time our clerk would be more than pleased to show you around. If more hours are needed we will adjust this schedule to meet your needs. We will now be able to consolidate our equipment and records for better availability and faster more efficient service.

Accidents showed a decrease of 12% with injuries about the same as last year, four fatalities were recorded, ten motor vehicles were stolen and nine were recovered, one as far away as California, missing person reports were down to only three with all returned, burglaries and thefts were up almost double due mostly to a three month influx by a group. The alleged perputrators have been apprehended and are now awaiting trial while our investigation continues. Court cases and arrests were up 10% due in part to increases in patrol hours.

Hampstead is a growing community and your Police Department is keeping stride by increasing manpower and added patrols. Crime will never stop but with your continued assistance and cooperation we pledge to do our utmost to keep it at a minimum.

Front Row: Chief William Letoile, Sgt. F. Carl Rogers, Deputy Chief Joseph Beaudoin, Henry Deamon, C. Earle Gordon
Back Row: Fred Whiting, Kenneth Owen, Bruce Roberts, Bill Cross, Robert Knox, William Griffin, Jr.

Police Dispatcher: Ann Beaudoin

Fire Department Report — 1986

This has been the first full year of our occupancy in the new fire station and the only problems we have encountered have been minor. We are addressing one through a warrant article asking the Town to approve money to purchase an automatic start deisel generator which will allow the Fire Department to function at full capacity during the occasional power outages we have.

Once again the Fire Department has been helped by the generosity of the Hampstead Mother's Club who donated money with which we purchased a gasoline pump for the station. This will enable us to fill trucks at whatever time of the night or day we may need to. Part of the money was also used to purchase a new chain saw to replace an obsolete one.

The Hurst rescue tool which was purchased with town funds and matching state funds has been installed on Engine I. It has been called into service and operates very effectively. The Rescue Squad used donations to purchase a set of Vetter's air bags which are capable of lifting a total of 57 tons. These may be used in conjunction with the Hurst tool to extracate trapped or stuck persons or equipment.

We are looking toward the future in asking the Town's people for funding to make improvements to the fire alarm system by installing the first radio alarm box this coming year.

Due to the extremely rapid growth of Hampstead, the Board of Fire Engineers will be evaluating our equipment replacement needs very closely with the purchase of new equipment in mind.

Fires caused by woodstove and chimney related problems continue to be a problem and we ask all residents of Hampstead to use care in the installation of heating equipment. To this end, the Town has appointed Wally Eaton as Oil Burner & Wood Stove Inspector. All installations of heating devices must be, by law, inspected. Oil burners may not be installed until a State installation permit has been obtained. This can be done by calling the Code Enforcement Office at 329-5846. Should a conflict arise over an inspection, the Chief of the Fire Department will make a determination.

The Board of Engineers thanks the members of the Firemen's Association and their families for their dedication to duty during the past year. We would also like to thank the many merchants who donated so generously to the Christmas Parade. Thank you all.

A special thanks to outgoing Engineer Randy Clark for his dedication and expertise during his term of office.

FIRE CALLS FOR 1986

Structure Fires	8
Chimney Fires	8
Dump & Rubbish Fires	0
Woods & Grass Fires	18
Motor Vehicle Accidents	19
Standy at Traffic Accidents	37
Box Alarms	6
Investigations	35
Mutual Aid Given	22
Mutual Aid Recieved	9

There were 153 fire calls and 156 rescue calls for the year.

Respectfully submitted,
Chip Hastings, Chief
Paul Wentworth, Deputy Chief
Neil Emerson, Captian
Jim Gilmartin, Lieutenant
Kerry Clark, Lieutenant

Town Fire Wardens and State Forest Ranger Report — 1986

Between July 1985 and June 1986, we experienced fewer fires than normal. The two leading causes of forest fires were again children and fires kindled without written permission of a Forest Fire Warden. Both causes are preventable, but only with your help.

Please help our town and state forest fire officials with forest fire prevention. Contact your Forest Fire Warden for more information.

Enforcement of state timber harvest regulation is the responsibility of State Forest officials. Our state has excellent timber harvest regulations, however, your assistance is needed.

If you know of a logging operation and suspect a state timber law may be violated, call your Forest Fire Warden.

If you own forest land, you became responsible for the timber tax payment starting April 1, 1986. This is a change in the Timber Tax Law that will impact all forest landwoners. Contact your Board of Selectmen for timber tax forms.

FOREST FIRE STATISTICS

	State	District #9	Hampstead
Number of Fires	840	424	18
Acres Burned	751	215	7
Cost of Suppression	$275,956	$2,570	$319

Respectfully submitted,
Chip Hastings, Warden
Cliff Demeritt, Deputy Warden
Al Brickett, Deputy Warden
Paul Wentworth, Deputy Warden
Glen Fitts, Deputy Warden
Neil Emerson, Deputy Warden
Randy Clark, Deputy Warden
Jim Gilmartin, Deputy Warden

Hampstead Emergency Rescue Squad Report — 1986

People are always asking us how we can do what we do. If your neighbor called and said she or he needed help because someone had fallen, wouldn't you go and do whatever you could? That is what we do, the only difference is that we have learned some specific skills so we can assist in a professional capacity. And we are always seeking more members of the community to join us.

The Rescue Squad is a volunteer organization compromised of twenty men and women. We are trained in emergency medical and rescue techniques. We meet twice a month on the first and third Wednesdays.

This was our first year contracting with Shanahan Ambulance Service. They have brought a new attitude of professionalism to our Squad. We are learning more on each call, which is a benefit of working with the paramedics. There was some initial concern about the response time for Shanahan and about our communication with them over the radio. The average response time is 11 minutes. The Squads response time is three minutes, which gives the squad about 8 minutes to evaluate, stabilize and prepare a patient for transport. The "problem" of radio communications just never developed. We have recommended that the contract for amulance service with them be renewed.

Two new pieces of rescue equipment were added this year. One was a suit designed for cold water rescue. The suit was researched and the information presented to the Sunset Lake Association. The "dry suits" are designed for ice rescue, but are useful for any type of water rescue because they provide dry, boyant, flotation for prolonged periods of time. The Association was convinced and donated one to the Squad. Our thanks to them for their generosity. Water rescue should only be attempted by pairs of rescuers and for this reason a second suit was purchased. The Squad had discussed the value of air bags in rescue work for a long time. Their usefulness in lifting any heavy object effectively and safely so a trapped victim can be released is impressive. The Frank E. Howard Memorial Fund provided the bulk of the money needed.

The memorial funds are to provide money for special equipment which the Squad might not otherwise be able to obtain. We thank all the people who contribute to these funds. We also are grateful to the Townspeople for their encouragement and support of our efforts. The Squad could not exist without the understanding of our families, their patience and encouragement is enormous.

Respectfully submitted,

Susan E. Hastings, President
David Duston, Squad Captain
Paul Wentworth, Training Officer

Hampstead Public Library Report — 1986

The Library continues to be a vital part of the community. The year's circulation is up 15%, in-house use is up 22%, and reference questions up 21%. This increase, coupled with last year's increase, stretches the capacity of staff and space to the utmost. Some services have been deleted and programs have been minimized so as not to close the children's room during evening hours any more than necessary. The library will be open four more hours this coming year to help spread some of the usage as well as to meet the state's minimum suggested requirements.

In 1985 the New Hampshire Public Library Standards were passed urging all libraries in the state to meet certain minimum levels of service and furnishing guidelines to meet these levels. Meeting a level of certification enables the library to receive certain benefits (cataloguing service for new books, van service, retrieval ability, and funds if available). One requirement for certification is that a library be catalogued. Cataloguing the collection has been a primary goal of the library for several years. The adult section is now completed and the children's room is 60% finished. This year's emphasis will be to complete as many requirements as possible.

The Trustees and Staff appreciate all the support given to us by the town organizations. The Mother's Club conducts a story hour and they have donated many books, records, and magazines to the benefit of the town's children. The Lioness Talking Book Shelf has grown and is a very popular area in the library. The Garden Club continues to do our window boxes. Many townspeople have given memorial books and we thank all of those who have donated books and magazines.

We were pleased and proud to accept a display cabinet made by Robert Rockwell for his Eagle Scout project.

Our children's craft workshops were done in the spring by Adele Trested and this fall, by Kathy Hootman. We held a book discussion program on children's books with Sandown Public Library sponsored by the N.H. Council of the Humanities. The Bearded Iris conducted two adult workshops.

The Summer Reading Program was very successful. The theme of "A Region of Readers" was a cooperative effort with Plaistow, Atkinson, Danville, and Sandown. Adults as well as children participated. Gloria Rothe led the pre-school story hour and summer crafts were conducted by Adele Trested. We held our very popular "worm race".

The Friends of the Library is an active group whose continued support of the library is of great importance. Gloria Lanning transferred the chairmanship to Gail Lapham in the spring. The Friends sponsored the Hollyhock Thrift Shop headed by Alex Draper and supported the Art and Photography shows and the summer reading program. Of great sadness was the passing of Mary E. Clark who had been a Friend since the group's inception and who also served as a Library Trustee. Elsie Miller, Elaine David, and Margaret Noonan volunteer many hours in the library. Their contribution has been invaluable.

Mrs. Rooney, the staff, and the Trustees have attended local, regional, and state meetings and professional programs for the benefit of the library. The Trustees continue to pursue plans to ensure the best long term library services to the people of the town. Special thanks go to Mrs. Catherine Robbins for her many years on the Board of Trustees. In March, we welcomed Dr. Lincoln Palmer to the Board.

We were sorry to accept the resignations of Assistant Librarian B. Joyce Miller, and part-time aides Mary Robert and Marianne Crowell. Mrs. Joan Hennessey joined us in the spring and Judi Crowley was promoted to Assistant Librarian.

Services for the forthcoming year will be dictated by space and staff-time limitations. Automation, programming, and other library related services will have to be put on hold until space problems can be resolved.

Mrs. Joan Hennessey, Mrs. Judi Crowley, and I will continue to work with you and for you in 1987.

Respectfully submitted,

Elizabeth B. Rooney
Head Librarian

Librarian: Becky Rooney

Public Library Building Committee Report — 1986

The Hampstead Public Library Building Committee has continued meeting and addressing the critical problem of adequate space for the town Library. This includes much needed space for books, workshops and exhibits, access for the handicap, expanded areas for study and reading, and improved space for research and reference.

With the extremely narrow loss of our building addition proposal in March, we are encouraged that significant support for additional space exists. Therefore, work proceeded along two paths to reach the best possible solution. The first was to continue revising the addition proposal by examining, with local consultation, the projected cost of each aspect of the program. The other was to explore, with the help of concerned townspeople, the feasibility of a new building.

This new approach would solve many of the key issues of the earlier proposal, shared parking and septic systems and the restriction of no future additional growth possible on the existing site. The practicality of this approach was greatly enhanced with the offer of a donation of approximately 3 acres of land on Emerson Avenue by Mildred and Mable Emerson. This site is conveniently situated within the town center. For these reasons the building committee has decided to concentrate its efforts on this solution. We strongly believe that a new building will be in the best long term interest of the town and will be a rewarding investment for the future.

Funds will be sought for architectural fees to develop a complete proposal, including full working drawings of the proposed new library. The building committee welcomes any and all suggestions and comments from the community. Your assistance is needed to ensure continued success for our library.

1986 Town Warrant — Town of Hampstead, NH

To the Inhabitants of the Town of Hampstead in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Memorial Gymnasium in said Hampstead on Tuesday, the 10th day of March, next at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To choose all necessary School Officers for the year ensuing.

3. To see if the Town will vote to amend Zoning Regulations of the Town of Hampstead as proposed by the Planning Board to read:

SOIL BASED LOT SIZE

1. PURPOSE
The Planning Board of the Town of Hampstead, New Hampshire, hereby adopts these regulations in accordance with the provisions of R.S.A. 674:35-36 in order to protect the Town against the danger to health, safety and prosperity occasioned by the lack of municipal water and sewer and to prevent the excessive expenditure ot public funds for the supply of such services.

2. DEFINITIONS
As used in this regulation, the following terms shall have the following meaning unless the context clearly indicates otherwise:

Commercial: As defined by the Town of Hampstead Zoning Ordinance.

Community Wastewater System: A non-municipal wastewater system that serves an average of at least twenty-five (25) individuals daily year-round or that has at least fifteen (15) service connections.

Community Water Supply: A non-municipal water supply system that serves an average of at least twenty-five (25) individuals daily year-round, or that has at least fifteen (15) service connections.

Industrial: As defined by the Town of Hampstead Zoning Ordinance.

Municipal Wastewater System: A wastewater collection, treatment and disposal system that serves an average of at least twenty-five (25) individuals daily year-round or that has at least fifteen (15) service connections and that is owned and operated by a municipal or regional government.

Municipal Water Supply: A water supply system that serves an average of at least twenty-five (25) individuals daily year-round or that has at least fifteen (15) service connections and that is owned and operated by a municipal or regional government.

Qualified Soil Scientist: A person qualified in soil classification and mapping who is recommended or approved by the New Hampshire State Conservation Committee.

Residential: As defined by the Town of Hampstead Zoning Ordinance.

Slope: The average steepness of the land surface under consideration. For the purpose of determining lot size categories, slope shall be determined by slope factors used by the National Cooperative Soil Survey soil classification (where B = B-8%; C = 8-15%; D = 15-25%; E = greater than 25%).

Soil Type: As defined by High Intensity Soil Maps for New Hampshire on file with the Rockingham County Conservation District.

Subdivisions: As defined by the Town of Hampstead Subdivision Regulations.

Wetlands: Lands containing soils that are poorly or very poorly drained, including freshwater and saltwater marshes as defined by the National Cooperative Soil Survey or further defined by High Intensity Soil Maps for New Hampshire.

3. MINIMUM LOT SIZES
In the absence of municipal sewerage facilities, minimum lot sizes within all subdivisions shall, in addition to meeting the requirements of the Zoning Ordinance for the district wherein the subdivision is proposed, also meet the lot size requirements specified in Table 1A, "Minimum Lot Size by Soil Type". The minimum lot size in the Town of Hampstead is 45,000 square feet. This requirement is subject to the following qualifications:

(a) Where more than one soil type is found on a lot, a weighted average of those soils occurring on the lot shall be used to determine the minimum lot size.

In the case of Cluster Subdivisions, the overall density of lots for development within the parcel shall be determined by using Table 1A and computing a weighted average of all soils (excluding wetlands) found in the parcel proposed for subdivision. One additional lot shall be permitted for each four (4) acres of poorly drained soil. Each lot will not exceed four (4) bedrooms.

(b) Wetlands may be used as a part of the computed lot size according to the following:

(1) Areas designated as poorly drained soils may be utilized to fulfill 25% of the minimum lot size required by Town ordinances and subdivision regulations, provided that the non-wetland area is sufficient in size and configuration to adequately accommodate all required utilities such as sewerage disposal and water supply, including primary and auxiliary leach field locations.

(2) Areas designated as very poorly drained, fresh or saltwater marsh or alluvial soils may not be uitlized to fulfill minimum lot size.

(3) No subsurface wastewater disposal system shall be constructed within 100 feet of any designated wetland area.

(c) Minimum lot sizes for residential developments with greater than four (4) bedrooms per unit and for commercial and industrial development shall be determined as follows:

(1) For residential use with five (5) or more bedrooms per building, the minimum lot size shall be proportionately larger than the lot size indicated in Table 1A as determined by the formula:

Lot Size (sq.ft.) = Number of Bedrooms / 4 X (lot size from Table 1A)

(2) For duplex use, the lot size shall be increased by 50% of the minimum lot size as determined by Table 1A.

(3) For commercial and industrial uses, lot sizes will be determined by the formula:

Lot Size (sq.ft.) = Gal. of Wastewater/Day / 1837 (gpd/40,000 ft.)^2 x (Lot size from Table 1A) + Land Required for Well Radius

Gallons of wastewater discharged per day shall be determined from Table 5-1, "Unit Design Flow Figures" of the New Hampshire Water Supply and Pollution Control Control Commission publication, *Guide for the Design, Operation and Maintenance of Small Sewerage Disposal Systems,* January, 1978, as amended.

(4) Final site plan approval for industrial development which is of such nature or character as to require state or federal permits for pre-treatment and discharge or subsurface disposal shall not be granted until all such permits are secured. The conditions upon which such permits are issued shall comply with state and local regulations and be made part of the record before the Planning Board.

4. DETERMINATION OF SOIL TYPE

(a) Tests for determining soil information for use in this section shall be performed by a qualified soil scientist using published soil data with on-site inspections as necessary.

(b) Soil data using the standards of High Intensity Soil Maps of New Hampshire shall be provided as part of the subdivision plan at the scale and dimension required. Any cover letters or explanatory data provided by the qualified soil scientist shall also be submitted.

(c) Such tests shall be performed with the advice and under the direction of the Planning Board or its designated agent.

(d) All costs of performing such investigations shall be borne by the subdivider.

5. RELATIONSHIP BETWEEN STATE AND LOCAL REGULATIONS

Where both state and local regulations are applicable, the most stringent regulations shall take effect. If the state regulations address an issue not included in the local regulation, or if the local regulation addresses an issue not included in the state regulation, that regulation shall automatically apply.

6. SAVING CLAUSE

Where any provision included within these regulations is found to be unenforceable by law, it shall be considred severable from the remainder of the regulation and shall not be construed to invalidate any other provision in these regulations.

7. Table 1A is provided by the Soil Conservation Service or the Rockingham Conservation District and may be amended by them from time to time.

4. To see if the town will vote to adopt the Hampstead Wetland Ordinance as part of the Zoning Regulations of the Town of Hampstead as proposed by the Planning Board:

A. **Purpose and Intent**

The purpose of this article is to protect the public health, safety and general welfare by controlling and guiding the use of land areas which have been found to be saturated or subjected to high water tables for extended periods of time—including established and seasonal wetlands.

It is intended that this article shall:

1. Prevent the development of structures and land uses on naturally occurring wetlands which will contribute to pollution of surface and ground water by sewerage or toxic substances or sedimentation;

2. Prevent the destruction of, or significant changes to natural wetlands which provide flood protection; provide filtration of water flowing into ponds and streams, augment stream flow during dry periods and are connected to the ground or surface water supply;

3. Protect unique and unusual natural areas;

4. Protect wildlife habitats, maintain ecological balances and enhance ecological values such as those cited in R.S.A. 483-A:1-b.

5. Protect potential water supplies and existing aquifers (water bearing stratum) and aquifer recharge areas;

6. Prevent unnecessary or excessive expense to the Town for the purpose of providing and/or maintaining essential services and utilities which might be required as a result of misuse or abuse of wetlands;

7. Encourage those low-intensity uses that can be harmoniously, appropriately and safely located in wetlands;

8. Preserve and enhance the aesthetic values associated with wetlands in the Town of Hampstead;

9. Prevent damage to structures and properties caused by inappropriate development in wetlands.

B. **Definitions**

High Intensity Soil Maps for New Hampshire: The most recent document prepared by the Society of Soil Scientists of Northern New England detailing the standards for making high intensity soil maps. On file with the Rockingham County Conservation District.

Poorly Drained Soil: As defined by the National Cooperative Soil Survey or further defined by High Intensity Soil Maps for New Hampshire. On file with the Rockingham County Conservation District.

Qualified Soil Scientists: A person qualified in soil classification and mapping who is recommended or approved by the New Hampshire State Conservation Committee.

Very Poorly Drained Soil: As defined by the National Cooperative Soil Survey or further defined by High Intensity Soil Maps for New Hampshire, on file with the Rockingham County Conservation District.

C. **Wetlands Defined**

Wetlands are areas that are inundated or saturated by surface or ground water at a frequency and duration sufficient to support, and that under normal conditions do support a prevalence of vegetation typically adapted for life in saturated soil conditions. They include, but are not limited to swamps, bogs, marshes, ponds, lakes, as well as soils that are defined as poorly or very poorly drained.

Wetlands are identified by the Town of Hampstead Soil Map prepared by the USDA Soil Conservation Service and "Town of Hampstead Wetlands Inventory Map" on file with the Planning Board. This map is considered as a guide only. The precise location of a wetland boundary in any particular case must be determined by on-site inspection of soil types and vegetation. This data will be prepared by a qualified soil scientist using the standards of High Intensity Soil Maps for New Hampshire.

D. **District Boundaries**

1. Wetland Conservation District

The Wetlands Conservation District is defined as those areas delineated as very poorly drained and poorly drained soils by the National Cooperative Soil Survey conducted by the USDA Soil Conservation Service. The Wetlands Conservation District also includes those areas listed in Section C.

2. Establishment of a District

The limits of the Wetlands Conservation District are hereby determined to be the following:

(1) all areas of very poorly drained soils;

(2) areas of poorly drained soils one half acre or more in size; and

(3) areas of poorly drained soils of any size if contiguous to surface waters such as lakes, ponds and streams subjected to high water table for extended periods of time.

3. Boundary Appeals

In the event that the Building Inspector or Conservation Commission questions the validity of the boundaries of a wetland area on a specific parcel of land, or upon the written petition of the owner or any abutter of the said property to the Planning Board, the Board may call upon the services of a qualified soil scientist to examine said area and report the findings to the Planning Board for their determination of the boundary.

Any necessary soil testing procedures shall be conducted at the expense of the landowner or developer. Any costs incurred through such appeals shall be borne by the landowner or developer.

E. **Relation to Other Districts**

Where the Wetlands Conservation District is superimposed over another zoning district, the more restrictive regulations shall apply.

F. **Permitted Uses**

1. **Poorly Drained Soils:** Permitted uses in areas of poorly drained soils are as follows:

a. Any use otherwise permitted by the Zoning Ordinance and state and federal laws that does not involve the erection of a structure or that does not alter the surface configuration of the land by the addition of fill or by dredging except as a common treatment associated with permitted uses b,c,d,e,f,g,h listed below.

b. Agriculture, including grazing, hay production, truck gardening and silage production provided that such use is shown not to cause significant increase in surface or ground water contamination by pesticides or other toxic or hazardous substances and that such use will not cause or contribute to soil erosion.

c. Forestry and tree farming to include the construction of access roads for said purpose.

d. Wildlife habitat development and management.

e. Recreational uses consistent with the purpose and intent of this Article as defined in Section A.

f. Conservation areas and nature trails.

g. Water impoundment and the construction of well water supplies.

h. Drainageways to include streams, creeks, or other paths of normal runoff water and common agricultural land drainage.

2. **Very Poorly Drained Soils:** Permitted use in areas containing very poorly drained soils, marshes, bogs, open water and major streams are as follows:

a. Uses specified under Section F.1 (a through h) shall be permitted except that no alteration of the surface configuration of the land by filling or dredging and no use which results in the erection of a structure, except as provided for in Section J, shall be permitted.

b. The construction of fences, footbridges, catwalks and wharves only, **provided** (1) said structures are constructed on posts or pilings so as to permit unobstructed flow of water; (2) the natural contour of the wetland is preserved; and (3) the Conservation Commission has reviewed and recommended the proposed construction.

3. **Lot Size Determination:** Areas designated as having poorly drained soils may be used to fulfill 25% of the minimum lot size required by Town ordinances and subdivision regulations, provided that the non-wetland area is sufficient in size and configuration to adequately accommodate all required utilities such as sewage disposal and water supply, including primary and auxiliary leach field locations.

No part of areas designated as having very poorly drained soils, or bodies of water, may be used to satisfy minimum lot size.

G. **Buffer Provisions**

1. **No septic system,** leach field or other waste disposal facility shall be installed **within 100 feet of the edge of any wetland.**

2. All construction, forestry and agriculture activities within 100 feet of any wetland shall be undertaken with special care to avoid erosion and siltation into the wetlands. The Planning Board,

pursuant to its site plan review authority, may require an erosion control plan approved by the Rockingham County Conservation District for any project undertaken up-grade of a wetland. No building activity (building does not include septic systems) shall be permitted within 100 feet of any very poorly drained soil and within 50 feet of any poorly drained soil except as provided in subsection 3 of this section. Where required, permits from the New Hampshire Water Supply and Pollution Control Commission, under RSA 149:8-a and the Wetlands Board under RSA 483-A shall be obtained.

3. Where an existing building within the buffer zone is destroyed or in need of extensive repair it may be rebuilt provided that such re-building is completed within two years of the event causing destruction, and the new or rebuilt structure shall not extend further into the wetland or buffer area than the original foundation.

H. **Filled Lands and Pre-existing Uses**

1. Lands, which may have been wetlands but were filled under properly issued state and town permits granted prior to the adoption of this ordinance shall be judged according to the soils and flora existing at the site at the time application for building permit or subdivision is made.

2. Structures and uses existing at the time of the adoption of this ordinance may be continued, provided that such use shall not be expanded to further encroach upon the wetlands or designated buffer areas.

I. **Exemption for Residential Structures**

Notwithstanding other provisions of the Article, the construction of additions and extension to one and two-family dwellings shall be permitted within the Wetlands Conservation District provided that: (1) the dwelling lawfully existed prior to the effective date of this Article; and (2) that the proposed construction conforms with all other applicable ordinances and regulations of the Town of Hampstead.

J. **Conditional Uses**

1. A Conditional Use Permit may be granted by the Planning Board (RSA 674:21 II) for the construction of roads and other access ways, and for pipelines, powerlines, and other transmission lines provided that all of the following conditions are found to exist:

a. The proposed construction is essential to the productive use of land not within the Wetlands Conservation District.

b. Design and construction and maintenance methods will be such as to minimize detrimental impact upon the wetland and will include restoration of the site as nearly as possible to its original grade and condition.

c. No alternative route which does not cross a wetland or has less detrimental impact on the wetland is feasible.

d. Economic advantage alone is not reason for the proposed construction.

2. Prior to the granting of a Conditional Use Permit under this Section, the applicant shall agree to submit a performance security to ensure that all construction is carried out in accordance with an approved design. The Security shall be submitted in a form and amount, with surety and conditions satisfactory to 1) the Planning Board for site plan and subdivision applications and 2) the Board of Selectmen in all other cases. In addition, Town Counsel approval must be acquired. The Security shall be submitted and approved prior to issuance of any permit authorizing construction.

3. The Planning Board, with the concurrence of the Conservation Commission, may require the applicant to submit a wetlands assessment when necessary to evaluate an application made under this Section. The cost of the assessment shall be borne by the applicant. The Planning Board may also assess the applicant reasonable fees to cover the costs of other specific investigative studies and for the review of documents required by particular applications.

K. **Special Exceptions**

1. Water impoundments for the enhancement of a wetland area with a permit from NH Water Resources Board. Where required, permits shall be obtained from the New Hampshire Water Supply and Pollution Control Commission under RSA 149:8-a, the Wetlands Board under RSA 483-A, and the United States Army Corps. of Engineers.

2. Non-Conforming Lots

1. Special exceptions to this ordinance shall be permitted only upon authorization by the Board of Adjustment. In order to permit the erection of a structure within the Wetlands Conservation District on vacant lots, the Board shall find that such exceptions comply with the following requirements and other applicable requirements as set forth in this ordinance:

a. That the lot upon which an exception is sought was an official lot of record, as recorded in the Rockingham County Registry of Deeds, prior to the date on which this amendment was posted and published in the Town.

b. That the use for which the exception is sought cannot feasibly be carried out on a portion or portions of the lot which are outside the Wetlands Conservation District.

c. That due to the provisions of the Wetlands Conservation District, no reasonable and economically viable use of the lot can be made without the exception.

d. That the design and construction of the proposed use will, to the extent practical, be consistent with the purpose and intent of this Article.

e. That the proposed use will not create a hazard to individual or public health, safety and welfare due to the loss of wetland, the contamination of groundwater, or other reason.

The Board of Adjustment may themselves, or upon petition from the Building Inspector, Conservation Commission or abutters, hire a qualified consultant or consultants to prepare such studies as are necessary to determine whether the conditions set forth above have been met. The cost of such studies shall be borne by the applicant.

L. **Procedure**

Special Exceptions shall only be granted by the Board of Adjustment after due public notice and public hearing and for undertaking the preceding uses in the Wetlands Conservation District, when the application has been referred to the Planning Board, the Conservation Commission, and to the Health Officer for review and comment at least twenty (20) days prior to the hearing.

M. **Other Provisions**

1. The Building Inspector shall not issue any permit for construction within the Wetlands Conservation Overlay District unless such activity conforms with the provisions of this Article. The Board of Selectmen shall have the power to enforce this Article and violations may be punishable by fines as provided by RSA 676:17.

2. Any wetlands altered in violation of this ordinance shall be restored at the expense of the violator(s) as provided by RSA 483-A:5.

5. To see if the town will vote to amend the Zoning Ordinance as proposed by the Planning Board by

Amending **Article X** to read:

Prologue: In order to insure the provision of a variety of housing opportunities, especially for the young and the elderly of Hampstead, the erection of multiple unit dwelling structures shall be permitted within Zone A.

Tract Size: Any tract for development of multiple unit dwelling structures shall have a minimum of ten contiguous acres.

Development Criteria: Such multiple unit dwelling development proposals shall have a minimum of twenty dwelling units.

Lot Size: Minimum lot sizes for multiple unit dwelling structures shall be based upon soils capability for adequately treating domestic wastewater, without adversely affecting adjacent wells, surface water, or otherwise compromising the residential quality of life.

Density: Density shall be not more than one third of the density calculated when using the procedures and standards set forth in the regulations established by the New Hampshire Water Supply and Pollution Control Commission, Administrative Rules, Ch.WS 1000.03, WS 1000.04 and 1000.05.

Soil Type Determination: Determination of on-site soil conditions shall be required of the applicant and shall be determined by a qualified soil scientist as designated by the Rockingham County Conservation District.

Setback: Every multiple unit dwelling structure shall be located not less than 100 feet from the nearest pre-existing right-of-way. Every multiple unit dwelling structure shall be set back from the property lines at least fifty (50) feet. The distance between buildings shall be not less than 75 feet.

Screening: Abutting properties shall be protected by appropriate screening of the adjacent multiple unit dwelling structures if required by the Planning Board.

Approval: The final approval of the subdivision for multiple unit dwelling structures is subject to and conditional upon site plan and subdivision review by the Planning Board. It shall be the responsibility of the Code Enforcement Officer to insure that the conditions and/or restrictions of this ordinance have been fulfilled.

Height: No dwelling shall be built to a height of more than two and one-half stories or thirty-five feet in height from the ground level to the highest roof peak. Features such as chimneys, towers, ventilators and spires may exceed thirty-five feet in height.

6. To see if the town will vote to amend the Zoning Ordinance as proposed by the Planning Board by:

Amending Article XX, Section 4, to read:
Multiple Unit Dwelling Structure: A building or portion thereof containing three or more dwelling units occupied exclusively for residential purposes, but not including trailers or mobile homes, however mounted, or commercial accommodations for transient occupancy.

Duplex Dwelling: A dwelling unit constructed purposely to provide complete and independent facilities and living space for two families.

In-Law Apartment: Living space in a single family dwelling without all the complete and independent living facilities, but still maintaining the character of a single family dwelling.

7. To see if the town will vote to amend the Zoning Ordinance as proposed by the Planning Baord by

Amending Article III, Section II, 2, to read:
"2. A building lot in Zone B shall have frontage on an approved street, and shall have a width of no less than 150 feet continuous on the street side of the lot. All lots shall be rectangular in shape if possible."

8. To see if the town will vote to amend the Zoning Ordinance as proposed by the Planning Board by

Amending Article III, Section II, 3, to read:
"3. Every new building or structure shall be set back from the front property line no less than 30 feet. Where there are no established street lines, all buildings shall be set back a minimum of 60 feet from the center line of the existing traveled way. All new buildings or structures shall be set back not less than 30 feet from the side and not less than 50 feet from the rear property lines."

9. To see if the town will vote to amend the Zoning Ordinance as proposed by the Planning Board by

Amending Article XI, Section III, to read:
"Signs may be illuminated with external illumination only in Zones A, B, C-1, C-2, and D.

Amending Article XI, Section V, to read:
"Temporary signs must be removed within 30 days from the time they are erected."

Amending Article XI by adding Section VI to read:
"The Board of Adjustment may grant a special exception to the terms of Article XI provided that 1) the spirit and intention of the Ordinance are met, and 2) that there is no diminution of surrounding property values."

10. To see if the town will vote to amend the Zoning Ordinance as proposed by the Planning Board as follows:

Article IV, Commercial Zone C-1, Section 1, A. Permitted Uses, add "5. The maximum building height shall be no greater than 35 feet."

Article V, Commercial Zone C-2, Section 1, A. Permitted Uses, add "9. The maximum building height shall be no greater than 35 feet."

Article VI, Commercial Zone C-3, Section 1, Permitted Uses, add "2. The maximum building height shall be no greater than 35 feet."

11. To see if the town will vote to amend the Zoning Ordinance as proposed by the Planning Board by expanding Zone D to include that parcel of land located northeasterly of Kent Farm Road, known as Tax Map 9, Parcel 24, consisting of approximately 40 acres, in that part of Hampstead bounded:

Beginning approximately 1,450 feet northwesterly from the intersection of Wash Pond Road and Kent Farm Road thence:
Northwesterly by the northeasterly line of Kent Farm Road approximately 700 feet;
Northeasterly approximately 200 feet thence;
Northwesterly approximately 200 feet thence;
Northeasterly approximately 950 feet thence;
Southeasterly approximately 250 feet thence;
Northeasterly approximately 1,000 feet thence;
Southeasterly approximately 700 feet thence;
Southwesterly approximately 1,000 feet thence;
Northwesterly approximately 350 feet thence;
Southwesterly approximately 1,500 feet to point first begun on Kent Farm Road.

12. To see if the voters of the Town agree to modify Paragraph 2, Section II, Article III as follows:

change "approved street" to read "street or way"
By petition.
Not recommended by the Planning Board

13. To see if the voters of the Town agree to modify the Hampstead Zoning Ordinance by replacing the existing Section V of the Article III, Recreational Zone B with the following new sections:

Article III, Section V
1. The maximum habitable floor space for a multi-level dwelling cannot exceed two times the ground floor area. The ground floor is that living space located at, or immediately above, street grade, which is not a basement.

2. The height of the building cannot exceed 28 feet when measured from the top of the foundation to the hightest roof ridge of the dwelling.
By petition.
Not recommended by the Planning Board

14. To see if the voters of the Town agree to clarify the meaning of the "grandfather clause" of Recreational Zone B by replacing the existing Section I, Article III, with the following:

Article III, Section I
1. The following regulations shall govern the erection and alteration of new buildings and use of land in the Recreational District.

2. Any building or use of land in existence as of December 17, 1968, shall be permitted and are hereby granted an automatic exemption from all the requirements of Article III, said exemption being binding upon the Board of Adjustment, per RSA 674:19. Article III shall apply, however, to any alteration of said building or use if the purpose or the manner of the proposed alteration will result in a substantially different use from that which existed on December 17, 1968. No other criteria shall be imposed by the Board of Adjustment, and no other considerations shall govern its determinations. The burden of proving that such conditions have been or will be met shall be upon the applicant.
By petition.
Not recommended by the Planning Board

15. To see if the voters of the Town agree to add to Article XIV, General Provisions, the following new section:

Article XIV, Section VI
1. All new septic and waste disposal system installations as well as upgrading or replacement systems shall conform to the regulations of the current Ordinance Governing Sewage and Waste Disposal Systems.

2. In the specific case of upgrading or replacement systems, should the applicant be denied a permit for failure to meet the Hampstead Ordinance Governing Sewage and Waste Disposal Systems, the Town will allow the applicant to submit the plan to the State for advice and approval. If the applicant's plans are approved by the State, as originally presented or with the State sanctioned modifications, the Board of Adjustment shall direct the Building Inspector to issue the permit.
By petition.
Not recommended by the Planning Board

16. To see if the voters of the Town agree to modify the requirements of Sections IV and V of Article XIV, General Provisions, by incorporating the following:

Section IV, after the sentence ending "....in effect at the time of conversion," add:
"If the existing waste disposal system is operational, suitable for the proposed conversion and there is no indication of imminent failure, the applicant may submit, as proof of compliance, a design for a replacement system by an approved engineer which the Board of Adjustment shall accept and approve the conversion. Should the system fail in the future, the owner is bound to install immediately this previously approved system.

Section V, after the period, add:
"If the existing waste disposal system is operational, suitable for the proposed alteration and there is no indication of imminent failure, the applicant may submit, as proof of compliance, a design for replacement system by an approved engineer which the Board of Adjustment shall accept and approve the alteration. Should the system fail in the future, the owner is bound to install immediately this previously approved system.

By petition.
Not recommended by the Planning Board

17. To see if the voters of the town agree to clarify the provisions of Section II, Article XVI, by inserting the following new language in the appropriate place, as indicated below:

After the period at the end of paragraph 2, add:
"Exceptions shall be granted by the Board of Adjustment if, but only if, the Board of Adjustment finds that the conditions of this ordinance relating to such permitted exceptions have been or will be met. No other criteria shall be imposed by the Board of Adjustment, and no other considerations shall govern its determinations. The burden of proving that such conditions have been or will be met shall be upon the applicant."

and after the period at the end of paragraph 3, add:
"Hardship, for the purposes of this Section, means that the land, building or structure, if required to be constructed or used literally in accordance with the provisions of this Ordinance, would produce unnecessary hardship to the owner, whoever, that might be. If the variance is denied on the basis of a) violation of the spirit of the Ordinance, or b) diminution of property values, or c) being contrary to the general good or welfare, the Board of Adjustment must furnish the applicant, in writing, the specific reasons and quote the specific, explicit requirements of this Ordinance upon which the Board's denial is based. If the applicant chooses to appeal the denial, the applicant need only correct the specific points stated by the Board and, if the applicant successfully does so, the Board of Adjustment shall grant the variance. The applicant will not incur additional fees if he/she chooses to appeal a Board's decision."

By petition.
Not recommended by the Planning Board

18. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

General Government	$ 294,846.00
Public Safety	197,550.00
Highways	244,000.00
Sanitation	150,000.00
Health	39,099.10
Welfare	26,000.00
Culture & Recreation	89,660.00
Debt Service	132,782.50
Miscellaneous	79,800.00
	$1,252,937.60

Recommended by the Budget Committee.

19. To see if the town will vote to authorize the Selectmen to hire money for the use of the town in anticipation of taxes.

20. To hear reports of Auditors and Committees and to act thereon.

21. To see if the town will vote to authorize the Selectmen to dispose of by public sale any real estate acquired by the town through Tax Collector's deeds, excluding those parcels of real estate which the Conservation Commission recommends for retention in the best interest of the town, as provided in RSA 80:42a.

22. To see if the town will vote to authorize the Board of Selectmen to make application for and to receive and spend in the name of the town, such advances, grants-in-aid or other funds for town purposes as may now, or hereafter be forthcoming from Federal, State, local or private agencies that would be of benefit to the town.

23. To see if the town will vote to accept the donation of $3,500.00 from the Cohen Foundation Camps.

Recommended by the Budget Committee.

24. To see if the town will vote to raise and appropriate the sum of $500.00 for the purpose of supporting the Rockingham Hospice program.

Recommended by the Budget Committee.

25. To see if the town will vote to raise and appropriate the sum of $20,000 for the purchase of a one-ton, four-wheel drive dump truck with snow plow for the use of the Cemetery Department and the Town Buildings & Ground Supervisor.

Recommended by the Budget Committee.

26. To see if the town will vote to raise and appropriate the sum of $14,000 for the purchase of a new Police Cruiser.

Recommended by the Budget Committee.

27. To see if the town will vote to raise and appropriate the sum of $19,000 for the purpose of purchasing and installing a generator at the Central Fire Station.

Recommended by the Budget Committee.

28. To see if the town will vote to raise and appropriate the sum of $10,000 for the purpose of up-grading the fire alarm system for town buildings.

Recommended by the Budget Committee.

29. To see if the town will vote to raise and appropriate the sum of $15,000 to enlarge and provide additional storage space for the Town Clerk-Tax Collector's office.

By petition.
Recommended by the Budget Committee.

30. "Shall we adopt the provisions of RSA 72:1-c which authorize any town or city to elect not to assess, levy and collect a resident tax?"

By petition.
Recommended by the Budget Committee.

31. To see if the town will vote to accept Beverly Drive as a town road.

32. To see if the town will vote to accept Johnson Meadow Road as a town road.

33. To see if the town will vote to accept Geiser Lane as a town road.

34. To see if the town will vote to raise and appropriate the sum of Five Thousand Dollars ($5,000) to fund a research and mapping study to determine the feasibility of establishing a multi-purpose, town-wide system of trails throughout the community, such study to be conducted under the direction of the Recreation Commission of this town.

Not recommended by the Budget Committee.

35. To see if the voters of the Town agree to appoint a Citizens Commission for the specific purpose of redrafting the Hampstead Zoning Ordinance, said Citizens Commission to be guided by the following rules:

1. The Town Moderator will appoint one member and alternate from each of the five Zoning Districts in the current Hampstead Zoning Ordinance at his convenience after Town Meeting's adjournment but no later than April 1, 1987.

2. The Selectmen, the Planning Board and the Board of Adjustment will designate one of their members to be advisors to the Commission, and to render whatever assistance the Commission needs in the discharge of its duties. They shall have no vote in the proceedings of the Commission.

3. The Citizens Commission will convene within one month of its appointment, but no later than April 30, 1987, for the purpose of electing a Chairperson, Vice-Chairperson, and a Recording Secretary. Thereafter, the Commission shall meet at the call of the Chairperson, but no less than once a month, to conduct its business.

4. The express purpose of the Commission is to restate the language, not the substance, of the Hampstead Zoning Ordinance in as clear and concise a manner as possible, so that the average citizen will be able to read and understand all its parts, especially the sections concerning the requirements to be met when applying for special exceptions or variances and similar situations that require an appearance before the Planning Board or the Board of Adjustment, the appeals procedures and the remedies available to the applicant. Special care shall be taken that the wording will complement, not contradict, the provisions of the BOCA Code, except as previously adopted by Town vote. The Commission is empowered to restructure, redefine, retain, revise and add anything to the current Ordinance as long as it meets the purpose and intent of the Commission's charter and does not violate the state's statutes regulating Planning and Land Use, even if this results in a totally new Ordinance which replaces the existing one.

5. All Commission meetings are open to the public and the Commission shall endeavor to solicit as much public participation as possible. All acts of the Commission shall conform to the requirements of RSA 91-A.

6. The Commission will submit the final draft of the Zoning Ordinance to the Selectmen as soon as practicable but no later than December 1, 1987, for inclusion in the 1988 Town Warrant, pursuant to RSA 674:16 and 675:2-5, and shall explain it to the voters at the hearings prior to the 1988 Town Meeting.

7. The Commission shall be dissolved at the adjournment of the 1988 Town Meeting.

By petition.

36. We the undersigned registered voters of Hampstead request the allocation of $2,000 to the Vic Geary Center in Plaistow to be used to maintain the senior center facility.

By petition.
Recommended by the Budget Committee.

37. To see if the town will vote to require all salaried and elected town officials to attend town meetings.

By petition.

38. To see if the town will vote to raise and appropriate the sum of $50,000 for the purpose of beginning development of a new town Public Library, including preliminary site engineering and architectural work, to include full working drawings.

Recommended by the Budget Committee.

39. To see if the town will vote to instruct the town's represenatives to the Court to take all necessary measures to insure that no low level radioactive waste from the Seabrook or any other nuclear plant shall be stored or disposed of within this town of Hamsptead unless and until the proposed site of the proposed storage or disposal has been approved by the voters of the town at the annual Town Meeting by written ballot.

40. To see if the town will vote to raise and appropriate the sum of $30,000 for the purchase of 2 plow and wing set-ups for use of the highway department.

Recommended by the Budget Committee.

41. To see if the town will vote to raise and appropriate the sum of $20,000 to hire a consultant to evaluate the condition of town roads for the purpose of planning for future maintenance.

Recommended by the Budget Committee.

42. To see if the town will vote to raise and appropriate the sum of $1,000 to be used as a scholarship, $500 each for one boy and one girl, to be awarded at the discretion of the Recreation Commission.

Recommended by the Budget Committee.

43. We the undersigned Petition the Town of Hampstead to see if the Town will vote to raise and appropriate the sum of $31,000 to be used by the Police Dept. for another police officer. This will give the Town 24 hours, seven days a week police protection to begin immediately.

By petition.
Not recommended by the Budget Committee.

44. To see if the town will vote to raise and appropriate the sum of $1,995 for the purpose of purchasing a terminal to be added to the present computer system for the Town Clerk/Tax Collector's office.

Recommended by the Budget Committee.

45. To see if the town will vote to raise and appropriate the sum of $5,250.00 for the purpose of purchasing equipment for the use of the Cable TV Advisory Board for local origination.

Recommended by the Budget Committee.

46. To see if the town will vote to allow Mr. and Mrs. Randall Offord of Hampstead to own and operate a Bed and Breakfast, with no more than three (3) rented bedrooms, at 545 Main Street, Hampstead, in the Residential Zone.

47. To see if the town will vote to adopt the provisions of RSA 76:15a and 76:15b which allows the town to collect taxes on a semi-annual basis.

Recommended by the Budget Committee.

48. To see if the town will vote to authorize the Tax Collector to receive pre-payment of taxes according to RSA 80:52a.

Given under our hands and seal, this 23rd day of February, in the year of our Lord nineteen hundred and eighty seven. A true copy of Warrant—Attest:

Selectmen of Hampstead

The polls will not close before 6:00 PM. It is understood that a motion will be made at the opening of the meeting that the polls remain open until 8:00 PM.

The business meeting will be held on Friday, March 13, 1987, at 7:00 PM in the Memorial Gymnasium.

Articles 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17 will be voted by ballot on Tuesday, March 10, 1987.

INVENTORIES are mandatory. They must be filed with the Selectmen on or before April 15th. Forms are distributed by mail.

VETERANS should understand that it is their responsibility to request forms for tax exemption. The Green Card is a permanent record and must be filed only once. However, in order to receive the exemption each year, the Inventory must be filled in, signed and in the hands of the Selectmen before April 15th.

ELDERLY EXEMPTION APPLICATION. For persons over 65 who think they may be eligible and who have not received the exemption before, forms may be obtained from the Selectmen and returned by April 15th. The Green Card is a permanent record and must be filed only once. However, in order to receive the exemption each year, the Inventory must be filled in and in the hands of the Selectmen before April 15th.

The SELECTMEN meet in their office in the Town Office Building on the second and fourth Monday of each month at 8:00 PM.

The PLANNING BOARD Regular Meeting is held on the first Monday of every month at 7:00 PM.

The BOARD OF ADJUSTMENT meets on the first Thursday of every month at 7:00 PM.

Auditor's Report

The firm of Carey, Vachon & Clukay, Certified Public Accountants, was retained by the Town of Hampstead to conduct the annual audit for the year ending December 31, 1986.

Copies of Mr. Vachon's bound report are available at the Town Office during normal business hours.

Budget of the Town of Hampstead, New Hampshire

PURPOSES OF APPROPRIATION (RSA 31:4)	Appropriations 1986 (1986-87)	Actual Expenditures 1986 (1986-87)	Appropriations Ensuing Fiscal Year 1987 (1987-88)

Public Library Trustee's Report — 1986

The Hampstead Public Library has continued to strive to maintain its high level of service to the community. This has been accomplished in spite of the continuing increase in the number of library users. Much credit must go to our director, Elizabeth Rooney, and the other able and competent staff members. Their dedication and hard work is greatly appreciated by the Trustees and all library users. Through their continued efforts great progress has been made toward our goal to complete cataloguing of the library's books.

With the completion, in the early part of the year, of the major renovation project on the front of the library, which included complete restoration of the entrance columns, this historic building remains structurally sound. Additional work completed was repair and replacement, with long lasting material, of the front steps.

The lack of adequate space for the normal functioning of the library remains the primary concern of the Trustees. Additionally, we are concerned over the lack of handicapped access. Our library is a place where people of all ages and interests may freely go in search of information, enrichment and social activity. More space is needed to keep these attributes in line with our growing town. The Trustees have been working closely with the dedicated members of the building committee to devise the best long term plan for the townspeople.

The Trustees were saddened by the death of long term trustee, Mary Clark. However, her deep committment to the library will continue with her generous gift. In keeping with the intentions of her will, the Trustees will, when the funds are released from probate, be establishing the Mary Clark Memorial Fund. Income from this fund will allow the Trustees to continue making improvements and expansions in library services, at significant savings to the townspeople.

The Trustees wish to thank the individual volunteers who gave freely of their time for the betterment of the library, and in particular to Robert Rockwell for the donation of his Eagle Scout Project, a much needed display case. Thanks also go to the Friends of the Library who raised money for unbudgeted items, the Hampstead Mother's Club and Lioness who gave generous gifts and the Hampstead Gardening Club who provided numerous beautification benefits.

Warren Trested, Chrm.
Pamela Hartung
Lincoln Palmer

Hampstead Historic District Commission Report — 1986

This has been a quiet year for the Hampstead Historic District Commission with not too much activity.

The commission, under the direction of vice chairman George Moore, sponsored the annual Commemorative Thanksgiving Service on the Sunday before Thanksgiving, with many old friends as well as new friends attending.

The Rev. Carlos Paz, pastor of the Island Pond Baptist Church, giving the traditional service. He was assisted by the Rev. Robert Dobson, pastor of the Hampstead Congregational Church and the Rev. Florent Bilodeau, pastor of St. Anne's Church.

In the late fall, landscaping of the Olde Meeting House was completed and hopes are Spring will bring a nice green lawn and blooms from the bulbs, donated and planted by the Hampstead Gardening Club.

We realize now a brick walk should have been placed from St. Anne's parking lot to the center walk and from the center walk to the parking lot on the other side, as people just cut across the newly planted lawn. Mike Curry, who did the planting, has promised to fix it in the spring. Also, several shrubs were damaged by plowing and we hope these will come back.

Activities in the 242 year old building have included meetings by various clubs and organizations and in November, Patricia Mortensen sponsored a successful craft fair, donating table rental to the Senior Citizen's Christmas dinner.

The kitchen is now complete and usable for light refreshments to be served at meetings, showers or other functions.

Among the others who have used the building are the Hampstead PTA, Hampstead Gardening Club, Women's Resource Center for regstration and Candidates Night, Friends of the Library, Sunset Lake Assocation, Zone B Committee, Grade 2, Central School for rehearsals for Thanksgiving play, nursery school graduation, Christmas party for Montessori School, a family reunion, a wedding, showers, 5th Regiment, New Hampshire Volunteers, (Dave Morin), the Hampstead School System for pre-registration of incoming readiness and first graders plus others.

The building is being used constantly and is available to any resident of the town, free of charge unless money is earned from the event. For further information on use, call Chairman Elsie T. Carideo.

Respectfully submitted,
The Hampstead Historic Distrci Commission,
Elsie T. Carideo, chairman,
George Moore, vice chairman,
Muriel Goton, secretary,
Priscilla Lindquist, treasurer,
Kenneth Parker

Hampstead Board of Adjustment Report — 1986

In accordance with the Home Occupation Ordinance which was passed at the March 1986 Town Meeting, the Board has been conducting public hearings for applicants who propose to operate home businesses within the residential zone. After consideration of the requirements of the ordinance, notification of abutters, and inspections by the Code Enforcement Officer, ten home occupation permits were issued during 1986.

The board experienced some budget overruns because of unexpected lawsuits which were filed during the year. The town has not lost any of the legal arguments yet. However, people are continuing to file suits against the Board.

During the year we held hearings for 57 Special Exceptions, granting 43 and denying 14. Ten of the Special Exceptions were for Home Occupations. Hearings for 29 variances resulted in 20 approvals and 9 denials. There were five rehearings granted and two hearings were held for Appeals from an Administrative Decision.

Respectfully submitted,
Donald Reese, Jr., Chairman

Conservation Commission Annual Report — 1986

Considerable time this year was devoted to the development of efficient and effective methods of processing dredge and fill applications. Our local wetlands are a vulnerable resource, as Hampstead continues to be subjected to development pressures and the Commission places a high priority on the protection of these indispensable areas. The final phase of the Hampstead Wetlands Inventory was completed in the summer of 1986, further classifying 52 of the 114 wetlands delineated in Phase I of the project. Results of this study provided the necessary data to comment on dredge and fill applications at state and local levels. Professional engineering assistance was sought on selected projects as well as the services of the U.S.D.A. Soil Conservation Service and the Rockingham County Conservation District.

In 1986, 23 dredge and fill applications were processed, including on-site inspections and input to the NH Wetlands Board and Hampstead Planning Board which consisted of written reports and attendance at meetings. One violation was noted and acted upon.

The Hampstead Conservation Area trails continued to provide educational and recreational enjoyment for the public. Field trips were provided for many Central School students as well as classes from area nursery and private schools. The Women's Resource Center of the YWCA sponsored a summer science course taught exclusively on various Hampstead conservation properties and public walks were offered for all. By the end of 1986, the educational brochure and trail guide for the Conservation Area was published, detailing the 26 points of interest located on the 5 miles of trails.

The Commission co-sponsored the annual Fishing Derby at Shop Pond with the Civic Club and Mothers' Club, with N.H. Fish and Game Department again providing a matching fish donation.

Seminars attended by Commission members included the Natural Resource Lecture Series, High Intensity Soil Mapping, N.H. Association of Conservation Commissions Annual Meeting. We were asked to present the Hampstead Wetlands Inventory at a regional meeting of Conservation Commissions held in Kingston, N.H.

The current wetlands ordinance is being revised by Commission members, S.C.S., Rockingham Planning Commission and the Hampstead Planning Board to provide the town with regulations that will adequately protect our wetland resources.

Thank you to former members Denis Currier, Christopher Miller, John Klett and Leonard Katz for their contributions to the Commission.

Kathe Cussen, Co-Chairman, Treasurer

Rockingham Planinng Commission Report — 1986

The Rockingham Planning Commission provided a variety of assistance to the Town of Hampstead in 1986.

The most significant form of assistance was the preparation of a Wetlands Ordinance incorporating the new Conservation Commission's Wetlands Map. This project was done in conjunction with the Soil Conservation Service District Conservationist, Jim Hayden. Staff met with Mr. Hayden on several occasions to work on drafting the ordinance, and met with the Conservation Commission and Planning Board twice to discuss revisions and to finalize the ordinance.

The following assistance also was rendered to Hampstead during calendar year 1986:

1. Made two site visits with Wetlands Board inspector to a proposed development location regarding a dredge and fill application.

2. Reviewed plans for above-mentioned subdivision application with Wetlands Board inspector to discuss methods for reducing the development's impact on wetlands.

3. Provided copy of Town's Flood Hazard Boundary Map to realtor.

4. Provided model Aquifer Protection Ordinance to Conservation Commission.

5. Prepared Citizen's Summary of new Wetlands Ordinance for use by the Planning Board.

6. Discussed Town Trail System with town consultant and described our agency's past activities in this regard.

7. Spoke with Conservation Commission member to coordinate inter-town cooperation between Hampstead and Kingston for establishing a Town Forest in Kingston.

8. Discussed in-law apartments and duplexes with Len Chase and provided sample definitions on same. Provided suggestions on how to allow duplexes by special exception.

As a member of the Rockingham Planning Commission, Hampstead also benefited from a wide variety of services beyond those listed above. During 1986, the Commission:

1. Assisted in the organization and hosting of the 3rd Natural Resources Lecture Series -- a 3-session seminar on the environmental impacts associated with land development.

2. Organized and hosted a 3rd "Legislative Get-Together" to inform local legislators of the functions of the Commission and to provide a forum for discussion of local, regional and state growth issues.

3. Assisted in the organization and hosted the 11th annual Municipal Law Lecture Series for town boards involved with land use decisions.

4. Organized and held Commission-sponsored workshop on subsurface waste disposal.

5. Continued, for a second year, a Rockingham County-wide Household Hazardous Waste Collection Project, at which residents disposed of unwanted hazardous household products in an environmentally safe manner.

6. Through the Special Advisory Committee on Transportation, organized radio dispatch center at Exeter Hospital to coordinate social service agency and hospital transit services.

7. Assisted in the organization of the Southeastern Rockingham County Sanitary Solid Waste Management District and assisted in its merger with the Seacoast Solid Waste District and the Hampton/Exeter District to create the Southeast Regional Solid Waste District.

8. Completed slide shows on regional development and master planning for presentation at service clubs and other gatherings.

9. Prepared an updated version of "Regional Facts," a brief overview of the region's social and economic condition for use by area realtors, entrepreneurs and interested citizens.

10. Prepared and distributed a zoning and building code amendment calendar informing area towns and local planning boards of the timing of events associated with bringing zoning and building code changes before town meeting.

11. Assisted in drafting legislation to permit municipalities to charge developers for off-site costs resulting from new development.

12. Completed the Regional Data Report containing basic demographic information on all towns in the region.

13. Prepared a Regional Housing Element describing the housing situation in the region and options available to provide opportunities for the construction of low and moderately-priced housing.

14. Prepared an update to a 1978 study of shoreline change along New Hampshire's 18-mile coast, including recommendations and cost estimates associated with mitigating the changes described.

15. Prepared a map of the region showing zoning conflicts at town boundaries, along with text explaining the conflicts.

16. Met with, and provided testimony to, the Public Utilities Commission regarding the need for continued and expanded rail service in Southeastern New Hampshire.

17. Distributed memo to member towns describing how to assess traffic impact fees on development.

18. Developed correspondence and shared associated memo describing basis of municipal requirement to show adequate quality and quantity of water prior to issuance of building permit.

Leonard R. Chase
Susan E. Hastings

Rockingham Regional Planning Commissioners

Family Mediation Annual Report — 1986

In 1986 Family Mediation of Southern Rockingham County has continued to provide essential services to juveniles and families in the communities of Atkinson, Danville, Hampstead, Kingston, Newton and Plaistow. The program serves as a juvenile court diversion program for juveniles who are experiencing difficulties at home, school or in the community. Services provided include mediation, probation, case assessment, case management, referrals and crisis intervention.

During 1986 the program worked with over seventy area juveniles and families. Funded by the six communities and the Hampstead-Timberlane United fund, the program is able to offer services to any area juvenile or family free of charge. As a result of this, many families have utilized the program successfully, resolving issues without further need of Court intervention and possible placement of the juvenile outside of his/her home and community.

Once again I would like to extend my appreciation and gratitude to the volunteer mediators and Board of Directors without whom the program could not function. It is their dedication to the members of their communities that allow the program to provide the effective services that it does.

We look forward to another year of involvement with local families and hope that area residents will continue to support the work being done by this program.

Respectfully submitted,

Dawn Barnes Krygeris
Program Coordinator

Lamprey Health Care Report — 1986

Lamprey Health Care (formerly the Newmarket Regional Health Center) marks its sixteenth year of providing services during 1987. Lamprey Health Care operates two medical offices, one in Newmarket and one in Raymond. Both facilities provide general medical care, preventive health services, community outreach, social services and short term counseling with referral to mental health agencies. Services also offered by Lamprey Health Care include Senior Citizen Transportation and Information & Referral Services for Rockingham County.

The change of name from the Newmarket Regional Health Center to Lamprey Health Care was the result of a long and careful planning process. The word "Lamprey" was chosen because it brings a sense of history, and "Health Care" was chosen because it best summarizes what we do and what we believe in.

Along with our new name, 1986 was a year of big changes for Lamprey Health Care. In January, the new Raymond facility opened on Route 27. The new 6,200 square foot facility allows Lamprey Health Care to provide more services in a spacious modern facility to the residents of the Raymond area. The Board and Staff of Lamprey Health Care are in the planning process for a new facility in Newmarket to replace the current one on Elm Street.

Paul Friedrichs, M.D., a Family Practitioner, joined the staff in June, as did John Mark Blowen, Family Nurse Practitioner. They join Edward Benoit, M.D. and Karen Brainard, M.D. - Family Practitioners, Cynthia Rasmussen, M.D. - Obstetrician/Gynecologist, Sarah Oxnard, M.D. - Pediatrician, Michael Lewis, P.A.-C., Barbara Janeway, A.R.N.P., and Anne Fawcett, A.R.N.P. to the medical team for Lamprey Health Care. In June of 1987, Micki Kantrowitz M.D., Family Practitioner, will join the staff. The addition of physicians in recent years allows Lamprey Health Care to serve the growing population of this area effectively.

Under the direction of Dr. Rasmussen, Lamprey Health Care offers a prenatal program which includes prenatal, delivery , and postpartum care. Other components of the program include nutritional counseling, prenatal classes and social service referral.

Lamprey Health Care continues to operate the Senior Citizen Transportation Program. In December of 1986, Lamprey Health Care purchased two new 18+ passenger busses to replace two busses with many miles and high maintenance costs. These two new busses were purchased in cooperation with COAST (the Cooperative Alliance for Seacoast Transportation) and are a welcome addition to our fleet of busses. Three of the five busses are equipped with hydraulic lifts to provide services to the handicapped. The transportation service enables senior citizens to remain independent, self-sufficient and active by providing the means to needed services, including medical, food shopping and recreational trips. For further information, call 659-2424 or toll-free 1-800-582-7279.

In early 1987, a new medical information program will be available. Tel-Med is a taped library of "non-diagnostic" health information designed to provide basic facts about certain diseases, conditions or health issues. The library will contain 200 taped messages which can be accessed 24 hours/day, 7 days/week by residents with touch tone phones and Monday-Friday from 8am-4pm by residents with rotary dial. The numbers to call to reach Tel-Med are 433-3232 and 433-3242, and 659-7514 and 659-7516. The Tel-Med Program is funded by the Foundation for Seacoast Health of Portsmouth. For more information about Tel-Med, call 659-3106.

Lamprey Health Care wishes to express its deepest appreciation for the support of the town of Hampstead.

Respectfully submitted,

Ann H. Peters
Executive Director

Michael J. Gorham	District Moderator
Mary Stenson	District Clerk
George Stokinger	District Treasurer

ADMINISTRATION

Robert J. Crompton	Superintendent of Schools
Terrance F. Holmes	Asst. Superintendent of Schools
Thomas H. McDonald	Business Administrator

Effectiveness and Achievement

by Robert J. Crompton, Superintendent of Schools

As I observe the current state of the Hampstead schools, I believe that we are at the highest level of achievement in the history of the school district. I have absolutely no doubt that this upward achievement spiral will continue into the future because we have those characteristics found in effective schools. Let's look at some of these characteristics.

Clear goals, both academic and social, are found in effective schools. We have high expectations of our students to achieve academically and to behave in an appropriate manner. We expect our students to work harder at learning than is the case in ineffective schools.

Teacher efficacy is a characteristic of effective schools. Efficacy, in this case, means that teachers are confident; they know they can teach the children in their charge, and they do, and they do it well.

A thing called pervasive caring will be found in good schools. This simply means that the adult staff genuinely cares what happens to students. It means consideration for a safe environment, and it also means a demand for student performance, something that causes some students discomfort. Caring teachers also say "no"! sometimes because they care.

Effective schools have sound administrative leadership. There is direction; there is help; there is evaluation; and there is decision-making.

Good schools also attract parental and community interest, participation, and support. The home-school-community triangle lights up like a Christmas tree and gets brighter each year.

As I indicated, these characteristics jump out at us as being common sense and obvious. We need, however, to work at these things, day in, day out, and every hour of every day. I think that our school district is healthy and effective.

I have served this School Administrative Unit since 1969 and have seen student enrollments rise from 1900 to 3700. In all, I've been privileged to have made what I hope has been a meaningful contribution to the education of 15,000 boys and girls, including three of my own, who have passed through our school system. I have worked cooperatively and happily with forty-eight different school board members at over 2600 meetings. It has also been a pleasure to work with some 900 employees in this School Administrative Unit.

Hampstead has undergone significant change during my tenure. Growth, of course, is foremost among the changes and here, in 1987, we once again face major challenges in coping with that growth.

It has been a rewarding and exciting personal and professional experience and a truly grand adventure. I extend my heartfelt gratitude for permitting me to have done THE TOUGHEST JOB I'VE EVER LOVED.

Report of the Principal

by Robert P. Little

Monday, January 19, 1987, was Martin Luther King Day. It snowed the night before. Many Hampstead parents had the day off from work. Two hundred and fifty Middle School students came to school. Nine were absent. All of the teachers were present.

Does the previous paragraph have a message or two? It means many things to me. It means that the vast majority of our parents and students take their education seriously. As far as teacher attendance is concerned, the research data clearly indicate that productive, contributing employees have a very good attendance record.

We continue to feel the impact of an ever increasing enrollment at the Central School. In October of 1983, there were 197 students. In January of 1987, we have 331 students. In our budget for next year we are projecting 385 students.

For the past eight years, Central School students have been bussed to the Middle School for art, music, and physical education classes as the Central School has no facilities for these programs. The growth in student enrollments in readiness, grade one and grade two has made it impractical to continue that practice. The increase in the number of homerooms has left us without enough teaching spaces for art, music, physical education, reading, speech, occupational therapy and guidance personnel. I could go on and on about the lack of needed facilities, but I hope I have made my point.

Next year the school cafeteria will be divided into two classrooms. We may have to lease a trailer or two to provide teaching areas.

Since the opening of the Middle School in 1978, all observable criteria suggest that the children of Hampstead have been the beneficiaries of an excellent education. During the 1970's, when the Central School housed all grades, the available criteria suggest that the education that Hampstead children received was not excellent.

What happened after 1978 that improved the quality of education? Perhaps the two most important things that happened were as follows:

First, teachers and students had appropriate spaces in which to teach and learn. Secondly, the school board authorized decent teacher/pupil ratios.

Unless we have added space, the quality of education in Hampstead will slowly regress. Please vote affirmatively for the bond issue to add to the Central School. Although the cost of the proposed addition will be substantial, the rewards of a good, sound education for our children will more than offset the financial burden.

Helen Stratton, Grade 4, Central School, and Raymond Flaherty, Grade 6, Middle School wrote a successful grant proposal to provide all of the Central School teachers with the training and equipment to help them become computer literate and functional. All teachers have computers, printers, and software at home for three years. The effort has been an outstanding success.

Mr. Gary Tepe, Guidance Counselor, Ms. Bea Steer, Reading Specialist, and I co-authored a report submitted to the New Hampshire State Department of Education as part of the National School Recognition Program. The Middle School was selected by the State Department to be one of five schools to represent the state

at the national level. Our school survived the first selection round and thus became eligible for an on-site evaluation from a representative of the United States Department of Education. It was an enlightening and rewarding experience. We went to the final round but did not make the final selection. I guess the faculty and students felt like the New England Patriots did last year. We may not have won the Super Bowl, but we at least got there!

Parent to teacher: "I wouldn't want your job. All those kids to manage and you have to compete with T.V. and give them a formal education too! No thanks!"

Teacher to principal: "I wouldn't want your job. I have enough to do without dealing with septic tanks, unhappy parents, budget building, suspending students, etc., etc.! No thanks!"

Principal to superintendent: "I wouldn't want your job. I got into this business to make an impact at the teaching/learning level. Your job is too far removed from the classroom. You have to be a politician, master contracts, raise taxes, build schools, deal with the bureaucracy, and attend meetings night after night. No thanks!"

Not everybody has the knowledge, stamina, or temperament to be a superintendent of schools. The Hampstead School District has been fortunate to have had Robert J. Crompton as its Superintendent of Schools for the past 18 years.

Mr. Crompton (we don't call him Bob) has been my Superintendent for the past nine years. I must confess to being biased as he recommended me to the Hampstead School Board as the first principal of the then new Middle School back in 1978. Over the years, I have gotten to know him well. He is at his best when the going is tough. Because of his stern exterior and professional demeanor, I am convinced that most people do not know how much he really cares about children and teachers.

He has insisted upon a quality education for the children of Hampstead. He has worked many long and successful hours towards that end. Mr. Crompton has announced his retirement. June 30, 1987 will be a bittersweet day for him. Somehow I think that most of us as educators who have served under him will be looking over our shoulders in the succeeding months wondering if he will appear if we "goof up". That's my way of saying he will not be forgotten.

On behalf of the many thousands of students that you supervised, the staff that you supported, the administrators that you guided, the school board members that you served as Chief Executive Officer, and the citizens of Hampstead a sincere thanks for a job well done and best wishes for a long and healthy retirement!

DETAILS OF ADMINISTRATIVE SALARIES

1986-1987

Superintendent of Schools	
Hampstead Share	$11,176

School Warrant — State of New Hampshire

To the Inhabitants of the School District of the Town of Hampstead, qualified to vote in District affairs:

You are hereby notified to meet at the Hampstead Middle School in Hampstead, New Hampshire on the ninth day of March, 1987 at 7:30 in the evening to act upon the following articles:

1. To see if the District will vote to construct and equip an addition to the Hampstead Central School and to provide parking and playfields on the site of that school and authorize the School Board to borrow money, under the provisions of New Hampshire's Municipal Finance Act, in the amount of Three Million Dollars ($3,000,000) to pay for the projects and to apply toward the cost of the projects all grants and interest received, or take any other action relative thereto.

2. (BY PETITION: J. Curry et al) To see if the District will vote to construct and equip an additional five (5) rooms to the Hampstead Central School for the purpose of implementing a kindergarten program and authorize the School Board to borrow money, under the provisions of New Hampshire's Municipal Finance Act, in the amount of Five Hundred Thousand Dollars ($500,000) to pay for the project and to apply toward the cost of the project all grants and interest received, or take any other action relative thereto.

3. To see if the District will vote to authorize the School Board as agents to carry out the purposes of the Capital Reserve Fund and to authorize said agents to withdraw money from the Capital Reserve Fund as needed to fullfill that purpose.

4. To see if the District will vote to raise and appropriate the sum of Ninety Seven Thousand Five Hundred Dollars ($97,500) to meet the first interest payment due on the borrowing authorized under Article 1.

5. (BY PETITION: J. Curry et al) To see if the District will vote to raise and appropriate the sum of Sixteen Thousand Two Hundred Fifty Dollars ($16,250) to meet the first interest payment due on the borrowing authorized under the above article.

6. To see if the District will instruct the School Board to execute a proposed new contract between the District and the Trustees of Pinkerton Academy and to see if such contract shall be deemed to be a contract by this school district with the Trustees of Pinkerton Academy.

7. To see what sum of money the District will vote to raise and appropriate for the payment of salaries of school district officials and the support of schools and agents and for payment of the statutory obligations of the District.

8. To see if the District will vote to authorize the School Board to apply for, accept and expend, without further action by the School District Meeting, money from the state, federal or other governmental unit or a private source which becomes available during the 1987-88 school fiscal year provided that such expenditure be made for purposes for which a school district may appropriate money and that such expenditure not require the expenditure of other school district funds.

9. To see if the District will accept reports of agents, auditors and committees.

10. (BY PETITION: C. Flaherty et al) To see if the School District will vote to mandate that School Board meetings be open to citizen participation and input at all times, excluding executive sessions.

11. To see if the District wishes to take any other action which may legally come before the meeting.

Given under our hands at said Hampstead this seventeenth day of February, 1987.

Auditor's Opinion

We have examined the general purpose financial statements of the Hampstead School District and the combining fund financial statements of the School District as of and for the year ended June 30, 1986, as listed in the table of contents. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As described in Note 1B, the general purpose financial statements referred to above do not include the General Fixed Asset Group of Accounts, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Assets Account Group is not known.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation, as explained in the above paragraph, the general purpose financial statements referred to above present fairly the financial position of the Hampstead School District, at June 30, 1986, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year. Also, in our opinion, the combining fund financial statements referred to above present fairly the financial position of each of the individual funds and account groups of the Hampstead School District, at June 30, 1986, and the results of operations of such funds for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Our examination was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole and on the combining fund financial statements. The accompanying financial information listed as supporting schedules in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements of the Hampstead School District. Such information has been subjected to the auditing procedures applied in the examination of the general purpose, combining fund financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements of each of the respective funds and account groups taken as a whole.

August 19, 1986

School Warrant — State of New Hampshire

To the Inhabitants of the School District of the Town of Hampstead, qualified to vote in District affairs:

You are hereby notified to meet at the Hampstead Middle School in Hampstead, New Hampshire on the ninth day of March, 1987 at 7:30 in the evening to act upon the following articles:

1. To see if the District will vote to construct and equip an addition to the Hampstead Central School and to provide parking and playfields on the site of that school and authorize the School Board to borrow money, under the provisions of New Hampshire's Municipal Finance Act, in the amount of Three Million Dollars ($3,000,000) to pay for the projects and to apply toward the cost of the projects all grants and interest received, or take any other action relative thereto.

2. (BY PETITION: J. Curry et al) To see if the District will vote to construct and equip an additional five (5) rooms to the Hampstead Central School for the purpose of implementing a kindergarten program and authorize the School Board to borrow money, under the provisions of New Hampshire's Municipal Finance Act, in the amount of Five Hundred Thousand Dollars ($500,000) to pay for the project and to apply toward the cost of the project all grants and interest received, or take any other action relative thereto.

3. To see if the District will vote to authorize the School Board as agents to carry out the purposes of the Capital Reserve Fund and to authorize said agents to withdraw money from the Capital Reserve Fund as needed to fullfill that purpose.

4. To see if the District will vote to raise and appropriate the sum of Ninety Seven Thousand Five Hundred Dollars ($97,500) to meet the first interest payment due on the borrowing authorized under Article 1.

5. (BY PETITION: J. Curry et al) To see if the District will vote to raise and appropriate the sum of Sixteen Thousand Two Hundred Fifty Dollars ($16,250) to meet the first interest payment due on the borrowing authorized under the above article.

6. To see if the District will instruct the School Board to execute a proposed new contract between the District and the Trustees of Pinkerton Academy and to see if such contract shall be deemed to be a contract by this school district with the Trustees of Pinkerton Academy.

7. To see what sum of money the District will vote to raise and appropriate for the payment of salaries of school district officials and the support of schools and agents and for payment of the statutory obligations of the District.

8. To see if the District will vote to authorize the School Board to apply for, accept and expend, without further action by the School District Meeting, money from the state, federal or other governmental unit or a private source which becomes available during the 1987-88 school fiscal year provided that such expenditure be made for purposes for which a school district may appropriate money and that such expenditure not require the expenditure of other school district funds.

9. To see if the District will accept reports of agents, auditors and committees.

10. (BY PETITION: C. Flaherty et al) To see if the School District will vote to mandate that School Board meetings be open to citizen participation and input at all times, excluding executive sessions.

11. To see if the District wishes to take any other action which may legally come before the meeting.

Given under our hands at said Hampstead this nineteenth day of February, 1987.
